DANGEROUS DANDRUFF

Will Make America a Baldheaded Nation If Not Checked.

M. Pasteur, the great French Physician of Paris, once said: "I believe we shall one day rid the world of all diseases caused by germs."

Dandruff is caused by germs, a fact accepted by all physicians.

Dandruff is the root of all hair evils. If it were not for the little destructive germs working with a parasitism worthy of a better cause, there would be no baldness.

Parlan Sage will kill the dandruff germs and remove all dandruff in two weeks or money back.

A. A. Clarke guarantees it! It will stop itching of the scalp, falling hair and make the hair grow thick and abundant.

It puts life and lustre into the hair and prevents it from turning gray. It is the hair dressing par excellence daintily perfumed and free from grease and stickiness. It is the favorite with women of taste and culture who know the social value of fascinating hair.

A scarf, made of the messaline and finished with gilt ornaments, is run through the lace at the neck and draws the garment in a little after putting on.

The back is similar to the front, except that the white panel is a little narrower and the line at the top is straight, instead of pointed.

Dr. Burstan on the Stevens Controversy

With reference to the Stevens controversy I wish to make a few statements to your readers which, if not true, will have an excellent case for libel against me. While it is true that the Stevens concern manufacture the best spectacle frames and mountings obtainable, I would ask are they honest when I am allowed an extra discount on their goods which opticians and others do not receive and which I get because I am a heavy buyer, using Stevens' Quality spectacle mountings and frames exclusively and buying in gross lots.

Stevens & Co., Inc., and the opticians (not oculists) of this vicinity, it would appear are combined in a gigantic trust to charge exorbitant prices and on this account I am determined to reveal some of the secrets of the optical business.

Stevens & Co., Inc., are opposed to me because I sell their products below a certain standard of price set by them; they are opposed to me because I sell one of their best eyeglass mountings fitted with lenses for \$1.00 and which costs me 27 cents net and because I consider 73 cents a gross profit, others do not.

In conclusion I wish to say: I have only to refer your readers and Stevens to the fact plainly stated in my advertisement that I AGREE TO REFUND ANY MONEY PAID TO ME FOR WORK DONE IF MY PATIENTS ARE NOT SATISFIED WITH THE SAME. This should be sufficient evidence to the public that I am doing a fair and honest business.

I will pay a reward of \$100 to any one if it can be proven that I don't handle Stevens & Co's spectacle mountings and frames, exclusively.

COAL ASSESSMENTS.

In spite of the varying values of coal lands in southwestern Pennsylvania and the wide divergence in the public mind concerning the methods and the measures of valuation for taxable purposes, it is a gratifying fact that the County Commissioners of Fayette, Westmoreland, Washington, Greene, Somerset and Cambria counties have pursued the same general plan based upon the same general principle. The Johnston-Lander outlines the method of the Cambria county authorities as follows:

"Owing to the rapid increase in the value of coal and coal lands in Washington, Greene, Fayette and Westmoreland counties in recent years, and the fact that large areas of the mineral are still undeveloped, some of the difficult problems now confronting the Commissioners of Cambria county have been fairly well solved. Coal in Washington represents about one-half of the total taxable valuation of \$12,000,000. The proportion will probably not be so great in Cambria county owing to the presence of Johnstown and its industries, but the only radical difference in the present assessment lies in the greater variation in values in Washington county due to relative accessibility and marketability, the selling prices running all the way from \$2,500 an acre on the river front, with easy shipment possible by rail and water, to \$15 for faulty coal in back townships at some distance from any railroad. The system used by the commissioners in the present assessment is interesting and perhaps valuable, as expert testimony was taken and allowed to stand by the courts several years ago, and the courts also approved classifications and distinctions which will be undoubtedly demanded by owners of coal lands in Cambria county.

A division is made first as to active coal and inactive coal. Active coal is coal so close to an opening and so situated that it is reasonably certain to be mined and marketed soon. At each mine opening the commissioners figured 100 acres at from \$75 to \$100 higher than the surrounding coal, not so near an opening, which is called as inactive. Then there are three classes of assessments. One for coal only where owned separately; one for surface only and one for coal and surface where owned together. The plan involved a lot of work in the beginning, but it makes the figures comparable and allows an appeal to be taken on separate items including improvements, surface, coal which is active or productive of revenue, and coal which is inactive, or held for future development. The distinction as to active and inactive coal is not made merely upon the choice of the owner whether he wishes to sell his minerals now or in the future, but upon the accessibility and marketability of the coal at the time of the assessment."

The only difference between the Cambria county plan and the method common to Fayette and adjoining counties is that we have not recognized as active coal that which is not to active operations without being actually opened; though such proximity, involving as it does, the closing down of the railroad bars, obviously adds to the value of the coal. The growing value of coal in the hill has been recognized; but, as a matter of equity and ability to pay, coal lands have been held at nominal values until their earning powers warranted assessing them on the basis of their operating value.

BAILEY AND CARR.

The Johnston Tribune intimates that under the new Democratic dispensation in Pennsylvania the Democratic Congressmen of Western Pennsylvania are going to have trouble holding fast to their patronage prerogatives. The Tribune says: "Representatives-elect Warren Worth Johnston and John W. Carr of Uniontown will be the only Democrats in the next Congress from Western Pennsylvania. Under the ordinary and established rules of politics they should count as the Federal appointments in Pennsylvania of the Attorney General, and hundreds of offices, from United States District Attorney down to the most useful and well-learned spoils of Messrs. Bailey and Carr. We read that some of these appointments were disposed of at a caucus of Democratic mine-owners from Pennsylvania. The boss system which deprives Bailey and Carr of their rights is detestable. Bailey and Carr should not stand for it."

The Tribune is doubtless well informed; moreover, its conclusions would be very intelligent guesses, judging from the manner in which the Democratic party has been shown since the deposition of the gallant, paternal and benevolent Colonel James Madison Clift. It is quite probable that the Tribune headed by Congressman A. Mitchell Palmer will insist upon exercising very severe supervisory powers over the disposition of all Pennsylvania patronage. Nor is it doubtful that, as an original and effective Wilson man Palmer will have the ear of the administration. The only hope of the Western Pennsylvania Democratic Congressmen lies in the pen of Editor Bailey and the tonnage of Oyster Carr, and this is far from being a forlorn hope. Bailey and Carr will make a strong team.

The total destruction of the members of the Antarctic expedition on their way back from the South Pole to home and honor is another sad illustration of the fact that fairs is fleeting.

Policemen seldom lock themselves up, but the men who commit themselves are a legion.

The cordial invitation of the Bell telephone company to the public to visit its exchange is undoubtedly

prompted by the fact that it feels that it has a good thing to show to the Conneltsville people. For the same reason precisely The Courier takes pleasure in making public its circulation day by day and week by week.

The coke brokers, who some time ago retired from the Conneltsville region, are still making final settlements with the operators in the courts.

When they got warmed up to the job, the Scotland church people are some debt-lifters.

The Chamber of Commerce is still after an iron plant, and it is a well established fact that no plant can long resist persistent pursuit.

Spring Draperies

First Complete Showing of

Cretones, Burlaps, Denims, Fancy Satines, Silkolines, Scrims, Swisses, Madras' and Sunfast Draperies.

The most beautiful display of these we have ever shown. However, we do not ask you to take our opinion for it as more than one lady has been heard to remark that they were the prettiest we have ever had and we think you will say the same when once you see them. Entirely new patterns and very dainty. They appeal to the woman with artistic taste in furnishing her rooms and carrying out her color effects. Quite popular for curtains, over draperies, box or trunk coverings, cushions, furniture coverings, fancy work bags, slipper bags, bed covers, comforts, etc., all marked at prices that the outlay will be hardly noticeable. We want you to see them.

Childrens Dresses for Spring

A well selected line of these which will solve the sewing girl problem for many mothers. Colored gingham, galeata, lawn and linsens in ages from 6 to 17 years, at 50c to \$5.00. Middle Blouses in ages 6 to 12 years at \$1.00 and \$1.25. Children's white dresses in one-half year to 6 years at 25c to \$7.00.

If You Value The Power of Money Buy Now.

The Union Supply Company are now offering, for men, boys and children, some very great bargains in the clothing departments. At some of our stores, there are yet fair stocks of overcoats for men and boys.

The mild winter weather checked the demand, but we want to sell them, and even if you carry them over until next season, the price we are offering them at, would be an inducement for you to buy. These are suits for men in heavy weights and medium weights, new, first-class goods the most fashionable the market produces, but our stocks are too heavy and we are going to close them out. Prices are cut to a point which makes it a great inducement for you to buy. There are quantities of boy's and children's clothing selling at half price. Now you want these goods; we want to sell them, and prefer to give them to you at reduced price, rather than carry them over. Our regular clothing prices are low, but with these special cuts, they are simply great bargains.

"THE SECOND COMING" DRAWS CROWD AT SCOTSDALE CHURCH

Closest Attention Characterized Presentation of This Subject.

MANY MINISTERS WERE PRESENT

Rev. William L. Pettigill of Philadel-
phia Says Fulfillment of Last
Prophecies Seen Imminent; First
Presbyterian Church Was Crowded.

Special to The Courier.
SCOTSDALE, Feb. 11.—An ap-
parent widespread interest in the
subject drew people to the First
Presbyterian church at 7:30 o'clock
last evening until the place was
crowded and the Sunday school rooms
had to be thrown open so that all
might comfortably hear Rev. William
L. Pettigill of Philadelphia speak on
"The Second Coming of Christ." The
pastors of the majority of the
evangelical churches of town were
present. The intensity of the hear-
ers for over an hour and a quarter
showed the interest felt in this phase
of the gospel.

Rev. James B. Hutchinson, pastor
of the church, presided and Ralph G.
Walker, upon whose invitation Rev.
Pettigill had stopped here on his
way to Cleveland for a Bible confer-
ence, introduced the speaker. After
the singing of "God Will Take Care
of You," and "Forward Christian
Soldiers," the music led by Miss
Maie at the pipe organ, Assistant
Pastor H. A. Becker and B. L.
Reynolds, a mill man, led in the
prayers.

Rev. Pettigill said that he did not
come in an argumentative mood, or to
coerce with any lack of the truth.
The truth that is revealed spiritually
does not come by logic but by revela-
tion, since the natural man has not a
spiritual mind, until he is born again.
The truth of the blessed hope of the
second coming of Christ to earth had
come, he said, after much study of the
Old Testament prophecies, and it
these may not appear to harmonize at
all points, he went on. I remember
that nothing is impossible to God ex-
cept lying, and it is his business to
lead and believe.

He read Luke 1, 32-33, and spoke of
the seven times "shall" is used there.
In and how four of them have been
literally fulfilled, and three are com-
ing rapidly to be fulfilled. Plain
language and literally every promise
of the Old Testament has been ful-
filled so far as the Man of Sorrows is
concerned, while none of those as to
his glorification have come to pass.

He went away physically and bodily
and so he will return again. No
dates may be set and no one need
get uneasy upon this score, but there is
the incentive of "servant the living
and true God and to wait for His Son
from Heaven," is every Christian's
pleasure and blessed hope.

The speaker said that to read the
Bible was to find the many instances
of "it will return," and it does not re-
quire one to go to a "theological
seminary" to find this out.

The speaker deplored the "spiritual-
izing" of the Scriptures that seems to
be so popular and spoke of a number

ONE DOSE RELIEVES A COLD—NO QUININE

Pape's Gold Compound Cures Colds
and Grippe in Few Hours;
Tastes Nice; Acts Gently.

You can surely end Grippe and
break up the most severe cold either
in head, chest, back, stomach or limbs,
by taking a dose of Pape's Gold Com-
pound every two hours until three
consecutive doses are taken.

It promptly relieves the most miser-
able headache, dizziness, head and
nose stuffed up, feverishness, sneez-
ing, sore throat, mucous catarrhal dis-
charges, running of the nose, sore-
ness, stiffness and rheumatic twinges.
"Take this wonderful Compound as
directed, without interference with
your usual duties and with the knowl-
edge that there is nothing else in the
world, which will cure your cold or
end Grippe misery as promptly and
without any other assistance or bad
after-effects as a 25-cent package of

stitute—containing no quinine—belongs

tisement.

of students stopping Dr. C. I. Scofield
as he was going across the campus
and asking the editor of the Scofield
Bible what a certain passage meant.
"Read it to me," said Dr. Scofield.
The students read the passage, "This is
what it means," answered Dr.
Scofield and passed on. The Scriptures
give what they mean or they do not
mean what they say, and God does not
lie.

Pettigill has told me it is dangerous
to preach "The Second Coming" to
young converts, raw converts as it
were. If you will turn to 1
Thessalonians you will note that Paul
wrote this letter to pretty raw con-
verts, to confirm young believers in
the foundation truths already taught
them, to exhort them to go forward
in holiness and to comfort them of
those that had fallen asleep, and that
the second coming of Christ is very
prominent in that epistle.

Referring to 1 John, 1-3, he re-
marked as Abraham Lincoln had
said, "God must have loved the com-
mon people. He made so many of
them." He must have also loved them
in giving them a book revealing His
purposes, and told them so many
times that He will come again. In
support of his position the speaker
used quotation after quotation from
the Scriptures as he went along until
the whole argument was composed
most largely of them. Following the
meeting a large proportion of the
congregation came forward to meet
the speaker. Whether agreeing with
him or not the most marked intensity
of attention on the part of the hearers
characterized the entire time of the
meeting.

The February White Sale Of Greatest Importance Begins Here Friday

10,000 Yards of Fresh, New Spring Embroideries

Just Over From St. Gall to Participate in the White Sale

The embroidery section is out to make a record at this sale—and is prepared
for a notable beginning Friday—with all February importations in from St. Gall;
some 10,000 yards of fresh, snow-white embroideries in all, and with the white
sale prices so favorable as to allow a full saving of a third, there is every reason to
expect stirring selling.

At once noticeable is the absolute newness of the patterns. There's almost a
total change in designs; a fact that is due to cause a lavish use of embroideries on
this Spring's garments. Briefly touching upon quality: These are not "sale" em-
broideries shorn of quality to appeal in price—but the fine, perfectly worked and
therefore durable sorts with the added feature of being marked a third below the
regular values. It's your most profitable time to lay in a supply of embroideries
for early Spring sewing.

Simple, Beautiful Muslin Underwear

Such dainty, dreamy garments one would hardly expect to find so moderately
priced. There many muslin underclothes makers in America, but only a few of them
are clever and particular enough to make the grade of muslin wear sold in this sale.

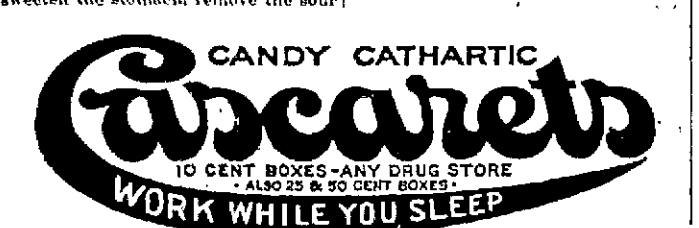

Such combinations of soft, dainty fabrics, and simple elegance in lines, and
carefulness of skill in machine and needle work, were never presented in this city
before.

AT THE THEATRES.

THE SOISSON.

"MUTT AND JEFF." Looking down the line of past productions of cartoon plays, there is no name that looms up as the producer of practically all the successful ones. It is no secret. Our line has picked all the winners in that particular class of plays. "Mutt and Jeff," although still young, has the record over all of them. This has been a season of a great number of successful productions. New York has a dozen hits, unfortunately there are so many that the patronage is not sufficient to make all of the deserving ones pay. This did not prove the case when "Mutt and Jeff" was at the Grand Opera House or the Manhattan Opera House, New York, where it walked away with the record business of the year. Among so many "Mutt and Jeff" just simply loomed up as the one complete success and caught the popular fancy, along with most of the loose change.

"Mutt and Jeff" with their entire family of singers, dancers and fun makers, come to the Soisson Theatre Friday, February 14.

"THE ROSE MAID." Both the army and navy have placed their stamp of approval on "The Rose Maid," the new and delightful Weber & Luescher operetta which will be the attraction at the Soisson Theatre Tuesday, February 13. Cold branches of the service gave theatre parties at the Globe Theatre in New York City during the past summer, during which "The Rose Maid" was produced its most interesting two-act run on Broadway.

It was this operetta that was chosen by the executive class of West Point for their annual entertainment. West Point night at the Globe Theatre was a glorious event. Following this, the senior and junior officers of the United States Military Academy, a party and were so delighted with the performance that they entertained the entire company on board the battleship at dinner a few days later.

VALENTINE RULES

Cupid's Darts Are Apt to Land in the Dead Letter Office.

Cupid's darts in the form of valentines are plentiful, but some of the missiles will never reach their destination because the senders have not complied with the postal rules. At least more than 300 valentines of all grades have been sent from Connellsville to the dead letter office. In order that the messages and cards symbolizing Saint Valentine may reach their addressees, Postmaster A. E. Kurtz is anxious that the senders observe the rules of the postal service.

To those who are not acquainted with the regulations, Postmaster Kurtz gives the following rules:

A valentine printed on paper or cardboard which is enclosed in an unsealed envelope and which bears no writing goes at third-class rate or one cent an ounce; matter sealed in envelopes or boxes goes at the first class rate or two cents an ounce; postcards enclosed in these paper envelopes go at two cents; any card having on it raised object of celluloid, paper, cloth or leather must bear a parcel post stamp and be sent at parcel post rates. The postal employees will do all in their power to aid Cupid's work, but unless mail matter bears the proper stamps it will go to the dead letter office and the little love god's darts will be wasted.

Some Chicken Story. A McKeesport bank teller alleges that by placing an egg in a box beside a steam pipe in the bank he was able to hatch a lone chick.

MAKES YOUR BACKACHE QUICKLY DISAPPEAR

A Few Doses Relieves All Such Miseries, Bladder Weakness, Kidney Trouble and Rheumatism Promptly Vanish.

It is no longer necessary for any one to suffer with back aching, kidney trouble, bladder weakness, bladder and urinary disorders to contend with, or be tortured with rheumatism, stiff joints, and its heart-wrenching pains for the now discovery, Croxone, quickly and surely relieves all such troubles.

Croxone is the most wonderful remedy yet devised for ridding the system of uric acid and driving out all the poisonous impurities which cause such troubles. It is entirely different from any other remedies. It is not like anything else ever used for the purpose. It acts on the principle of cleaning out the poison and removing the cause.

It soaks right in through the walls, membranes and linings, like water in a sponge, neutralizes, dissolves, and makes the kidneys soft and filter away, all the uric acid and poisons from the blood, and leaves the kidneys and urinary organs clean, strong, healthy and well.

It matters not how long you have suffered, how old you are, or what you have used, the very principle of Croxone is such that it is practically impossible to take it into the human system without results. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it.

If you suffer with pains in your back, sides, or have any signs of kidney, bladder troubles, or rheumatism, such as puffy swellings under the eyes or in the neck and ankles, if you are nervous, tired, and run down, or bothered with urinary disorders, Croxone will quickly relieve you of your misery. You can secure an original package of Croxone at trifling cost from any druggist. All druggists are authorized to permanently return the purchase price if it fails in a single case.—Advertisement.

They will succeed materially, and if they learn patience with the faults of others, they will hold high places in public life.
